Us TOO Support Groups zerocancer.org/supportgroups

Us TOO Support Groups offer in-person and virtual support for those affected by prostate cancer. These groups, led by local Support Group Leaders, meet regularly to provide peer support, resources, and education to empower men to make informed decisions on testing, treatment, and management of side effects. Groups are also available for special interests, including: Veterans, Black Men, Gay Men and their Partners (All LGBTQIA+ welcome), Caregivers, Spanish Language, Deaf Men, and others.

Online Support Services

A variety of online support services are available to help men affected by prostate cancer and their loved ones to connect with others who are going through, or have gone through, similar situations. ZERO Connect is a Facebook-based support group for participants to share stories, ask questions, and connect. Invite-only Facebook groups also exist for Caregivers and Black Men. The Inspire Online Support Community (ustoo.inspire.com) connects patients, families, friends, and caregivers to enhance the quality of life for all those affected by prostate cancer.

Peer Support

MENtor is a peer support network at zerocancer.org/mentor for anyone who has received a prostate cancer diagnosis or has experienced a recurrence. ZERO's trained, volunteer MENtors represent many different prostate cancer journeys and have a wealth of insights to share based on their experiences. The ZERO Caregiver Connector Program at zerocancer.org/caregiver-connector matches prostate cancer caregivers with others who have been in similar situations. Both MENtors and Caregiver Connectors provide valuable one-to-one support customized to meet individual needs.
